Addendum 1 – Questions & Answers
January 10, 2014

Request for Qualifications for
Design of Hostos Community College Allied Health and Natural Science
Building Complex
Project No. HS-CUCF-04-13

This Addendum is issued for the purpose of conveying the below listed Questions and Answers which include responses to the questions received by email. Consistent with Section XI. “Representation and Warranties” of the Solicitation, all information provided herein is made in good faith for information purposes only and does not in and of itself change the Solicitation. Changes to the Solicitation may only be made by formal amendment, if and when required.

Contact: Michael Feeney or Michael Rabin @ cuny.builds@cuny.edu

By signing in the space provided below, the Responder acknowledges receipt of this Addendum. This Addendum must be signed by an authorized representative of the Responder and submitted with the Proposal.

1) Does the “classroom needs analysis” project component, mentioned in the fifth paragraph on page 3 of the RFQ, refer solely to the classrooms required in the new Allied Health and Natural Science Building Complex, or is the College looking for a campus-wide analysis?

The College is looking for a campus-wide analysis to inform the building programming.

2) Please clarify if the full complete project team needs to be identified beyond the base consultants, such as but not limited to, Acoustics, LEED, Lighting, Façade maintenance, Parking/transportation etc.?

Submissions should include any sub-consultants the primary consultant believes will be needed for this project.

3) Does 3 similar/scale/complexity projects require they be modular projects? Is there a max. number of projects that can be included?

Previous experience with modular projects is a plus, but not a requirement. The submission need not include every project the consulting team has worked on, however there is no maximum.

4) Will projects completed greater than 5 years be acceptable to meet the project scope requirements?

No

5) Is there a max page limit for the submission?

No
6) On pages 7-8 of the RFQ, you ask for a SF330, but then also have separate bullet items for the list of similar project experience and team resumes. This information will be included in Part 1 of the SF330 in Sections F and E. Are you looking for us to include this information twice, or just list it once in the SF330?

   It does not need to be included twice, the SF330 will suffice.

7) Does CUNY desire to have a complete 3-d building model as a deliverable at the end of construction documents?

   Yes, to be negotiated as part of the contract

8) Can the RFQ contain additional supporting documentation beyond those listed on the submission cover sheet?

   Yes, but it is not necessary.
