CUNY will make pragmatic experiential learning a signature component of a CUNY education.

- CUNY University-wide and on its campuses will work with alumni, employers, industry groups, nonprofits and organized labor to increase the number and quality of paid internship programs.
- We will increase opportunities for students to build global competencies, through study abroad, languages and other programs.
- We will expand opportunities for undergraduate research across the community and senior colleges and with other institutions.
- We will increase opportunities for community service, tied to academic programs, through partnerships with state and city agencies and communities, the CUNY Service Corps and the CUNY Tutor Corps.
