Guide to Taking Sample Final Exams
Online Using MapleTA

CUNY Elementary Algebra Final Exam

November 2012

For the most up-to-date information on this exam, please visit
http://www.cuny.edu/testing
You can practice taking the Elementary Algebra Final Exam online using the same computer program you will use on the day of your exam. Follow the instructions below to get started.

- In your web browser, go to http://goo.gl/rEak2 or http://cuny.mapleta.com:8080/cuny-practice/modules/ClassHomepage.do?cid=2
- The first time you visit, you must click on Register.

- After you click Register, you will see this screen asking for your information. Use your email address for all three blanks. Click Submit when done.
• After you click Submit, you will be brought back to the Login Screen. Log in using the information you just entered.

• After you log in, you will be at the Class Homepage with a list of assignments.
• Each assignment is 5 questions from the Sample Final Exams. These questions are similar to the ones you will see on your actual exam. You may see other questions on your final exam besides the ones listed here. These are only samples.

You should try to work as many as you can. These are not for a grade, but they will help you prepare for the actual exam.
Each assignment is timed. On the Sample Exams you will have 20 minutes to complete 5 problems. On the real final exam, you will have 100 minutes to complete all 25 problems.

The picture below tells you about the various buttons you will need to use to move through the exam.

Each question has 4 answer choices. They may not all fit on your screen. You must scroll to see them.

If you do not see all FOUR choices, you must scroll down to see the others.

Use the gray scroll bar.

Where are the other choices?!
• When you are done with the entire assignment, click Grade. If you did not answer some of the questions, you will see a screen like the one below.

You may want to use the Question Menu to skip around the assignment.
If you have completed all the questions, when you click the Grade button you will see the screen below.

Click "View Details" at the top left of the screen to see which questions you answered correctly. When you have finished reviewing your test, click "Quit & Save" at the top right of the screen. You can then take additional practice tests. After taking other practice tests, you can return to this one and take it again to see if you have learned how to answer the questions correctly.

On the day of the exam you will not see your score or the questions you answered wrong. But for now, you can click View Details at the top left to see which questions you answered correctly.

Click Quit & Save to go back and take more sample exams. You can take each Sample Exam as many times as you want.

When you have finished practicing, from the Class Homepage, click Logout at the top right.
