Access-Ability Services (AAS) makes every reasonable effort to provide appropriate accommodations and assistance to students with disabilities. AAS’ goal is to ensure that KCC students with disabilities receive equal access to all KCC programs and services.

What we do

*TCS* provides a combination of direct and consultative services, which are individualized to meet the needs of each student, recognizing each student’s unique strengths and limitations. The range of supportive services may include:

- individual advisement and counseling
- identifying and implementing strategies to improve organizational skills
- self-advocacy skill building
- academic/behavioral hands-on support
- assistance with accessing campus services
- consultation with faculty and staff across campus
- social and life skills groups
- assisting students to connect with KCC clubs, organizations, and extracurricular activities
- peer mentors

Supports will gradually fade as the students develop more independence.

Why we do it

Our goal is to:

- Facilitate a positive environment for student academic achievement.
- Encourage student participation in college community life.
- Respond to the individualized needs of students.
- Increase awareness and understanding of ASD among faculty, staff, and students.

“TCS has helped me settle down [nicely in this college]...”

“I was able to socialize with other people, both adults and people my age.”

“Thank you so much for including me...”
