CUNY: New York Profits

• The City University of New York, founded in 1847, is the nation’s leading urban public university.
• The University has 24 colleges, graduate and professional schools all located within the five boroughs of New York City.
• CUNY serves over 270,000 degree-credit students and more than 260,000 adult, continuing and professional education students.
• Three years after graduation, 92% of CUNY students are either employed or continuing their education, or both.
• Nearly 85% of CUNY graduates continue to live and pay taxes in New York.
• CUNY confers more than 13,000 associate degrees, 20,000 baccalaureate degrees and almost 9,000 master’s degrees annually.
• Nearly six in 10 full-time CUNY undergraduates receive a tuition-free education, thanks to Pell grants, TAP awards and CUNY scholarships.

CUNY’s Economic Impact:

• Generating $8 billion a year into the city and state economies
• CUNY capital construction produces 14,000 jobs in New York City
• Millions invested to modernize campuses for the 21st century
• 85% of CUNY graduates continue to live and work in New York
• More than 8 out of 10 CUNY college students graduate free of federal loan debt
• $1 billion in financial aid and scholarships

CUNY Requests:

• Mandatory Cost Needs: $27 million
• Community College Base Aid: $26.3 million
• Capital Needs: $1.179 billion for capital projects
  $334 million in critical maintenance
• Predictable Tuition Policy/TAP Reform
• $2.8 million CUNY School of Medicine

CUNY SCHOOL OF MEDICINE-2016
The executive budget provides $16.5 million for fringe benefit cost increases; CUNY's total fringe benefits costs, however, are projected to grow by an additional $26.5 million in FY2017 and would be used to fund initiatives that improve student outcomes. This request is part of a multiyear effort to restore State funding so that it can adequately support and enhance community college programs.

The current base aid level is $2,597 per FTE, down $78 in nominal dollars from the FY2000 level of $2,675 in inflation-adjusted dollars.

This project will create an approximately 165,000-square-foot facility that will support its health professions programs, including nursing, physical therapy, and graduate programs in health and human services. The facility will include classrooms and student work areas. Project is in design.

CUNY-Wide Senior Colleges – Critical Maintenance

CUNY-Wide Science and Computer Equipment

Funding is needed for equipment purchase for college science and technology programs and CUNY’s Graduate Research Initiative well as computer equipment to support the demands of increasing technology in education. Recent studies on the condition of science and technology in this country have stressed the need for modern scientific equipment for teaching and research.

CUNYfirst

This CUNYfirst (Fully Integrated Resources and Services Tool) project will implement a new suite of Enterprise Resource Planning software applications.

CUNY-Wide Senior Colleges – Critical Maintenance

CUNY-Wide Science and Computer Equipment

This project will construct a 40,000-square-foot building to house the new Nursing Education, Research and Practice Center. The facility will include classrooms, instructional and research labs and administrative and support space. Project is in design; updated plans indicate that additional construction funding is needed to provide adequate program space in the new facility.

CUNY-Wide Senior Colleges – Critical Maintenance

CUNY-Wide Science and Computer Equipment

This project will construct a 175,000-square-foot facility to house a high-performance computer that will serve as a University-wide resource for computer-based modeling and simulation. The facility will contain spaces dedicated to scientific computing hardware, laboratories for visualization, computer labs, high-tech instructional laboratories, general-purpose classrooms and student work areas. Project is in design.

CUNY-Wide Senior Colleges – Critical Maintenance

CUNY-Wide Science and Computer Equipment

This project will renovate the building in phases, beginning with an infrastructure upgrade and continuing with the renovation of its 16 stories. Construction of Phase 1A is ready to commence.
